**Candice, Harry
Kenley, Oliver, Benny
and Community**
September 2021

Harry - When everything shut down, a lot of things changed. Our lives changed. We did everything inside the house. We just tried to be creative with the kids. We did the best we could.

Candice - With the kids at home for a full year and a half, we had to be everything for them, and it made me realize why we really do need a village. It made us realize there is a huge benefit to having a community.

I think we have this longing to be with others and to share our stories and learn from each other and grow. I've missed that.
